1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-21 and 28-29 are, drawn to a computer system, classified in class 708, subclass 131 (similar to the claimed invention of US Pat. 6,301,593).
 - II. Claims 22-27 are, drawn to a core computer system, classified in class 708, subclass 100 (similar to the claimed invention of US Pat. 6,029,183).
2. The inventions are distinct, each from the other because:

Each group of claims is directed to a separate invention. It is noted that the groups maybe belong to a system. each other, and thus are clearly directed to different and independent inventions.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
